

JONESCO

Fire and Safety
products

Manufacturing experts

Jonesco are the trusted brand for fire and safety suppliers across the globe.

Our story began in 1967 on Adelaide Street near Preston city centre in the UK. It is safe to say we have grown a bit since then.

Doing things better is why Jonesco exists. It is why we deliver the products you need, whenever and wherever you need them. Working Smarter. Not harder. Our rotationally moulded products can be found worldwide and our uncompromising commitment to quality means they are made to last.

Jonesco's headquarters are in Preston, Lancashire, UK with a subsidiary in Seclin, France. Our chain of distribution covers over 60 countries and spans every continent. We're truly global but we've not lost our family touch.

Front loading fire boxes

A range of single and double front loading fire extinguisher boxes designed for quick access in emergency situations with options for 5, 6, 9 and 12 kg extinguishers.

Fitted with automotive grade rubber seals and UV blocking moulded-in polycarbonate windows. Left or right hinged mountings.

Wheeled fire box

Introducing Jonesco's new wheeled fire box. This front loading unit is specifically designed to provide seamless manoeuvrability and swift access during emergency situations. With its generous 915 x 360 x 195 mm internal capacity, this wheeled cabinet is an excellent solution for storing and deploying large fire extinguishers, fire blankets (including EV size) and other essential safety equipment.

Break-glass boxes

A range of single and double lockable front loading fire extinguisher boxes with key access. The plastic key is safely stored behind a protective break-glass for added security.

Fitted with automotive grade rubber seals and UV blocking moulded-in polycarbonate windows. Left or right hinged mountings.

Top loading fire boxes

A range of top loading fire extinguisher boxes designed for quick access in emergency situations with options for 6, 9 and 12 kg extinguishers. Ideal for mounting on vehicles and other machinery.

Waterproof seal and plastic toggle access as standard. Internal tension strap helps prevent movement.

Hose reel boxes

Front loading boxes suitable for storing various hose reel sizes. All hose reel boxes are fully encased apart from the 100 series which has an open back and an 'L' shaped door allowing for the hose reel to pivot through 140°.

Fire extinguisher trolley

A mobile fire stand designed to hold up to two 12 kg fire extinguishers, including CO₂. The FireKart has a large display area suitable for alarm fitment, signage and labels. The extinguisher cradles and fixing slots can accommodate multiple extinguishers sizes (max. Ø 200 mm, hooks supplied). The base can accommodate a sand bucket as an additional option.

Fire extinguisher stands

A range of strong and durable fire extinguisher stands ideal for keeping extinguishers off the floor and offering a clear visual marker in emergencies. Available as single or double one-piece stands or a cost saving two-piece flat packed design.

Safety boxes

An extensive range of front and top loading safety boxes, ideal for storing breathing apparatus, chemical and spillage equipment plus much more.

Fitted with automotive grade rubber seals and UV blocking moulded-in polycarbonate windows. Left or right hinged mountings with toggle, break-glass or T-handle access options.

Lend us half an hour of your time
and we'll give you 50 years of ours.
